

2008 STUDIES

March 21, 2008

Hey, Big Spender!
How much will your legislator cost you?

Updated as of March 21, 2008

Using data and projections compiled by the Office of Financial Management, we have aggregated bills introduced in the 2008 legislative session to determine the total increased taxes and fees proposed by each individual legislator, as primary or co-sponsor, would bring to taxpayers over a ten year period. This chart will be updated weekly until all OFM financial projections have been released and finalized.
